The Heritage Bank Photographic Awards

Heritage Bank is Australia's largest customer-owned bank, with a history stretching back to our origins in Toowoomba in 1875.

Heritage has always been passionate about helping people. We're here to make our customers' financial dreams come true and to support the communities they live

in. That's because we recognise our responsibility not just to give people a great banking experience every time, but to make their community a better place to live.

Since 1988, Heritage has been maintaining a collection of Photographic Awards prints. This helps us follow our community's imaginings through time. Our collection of award-winning photos fill the walls of the Heritage

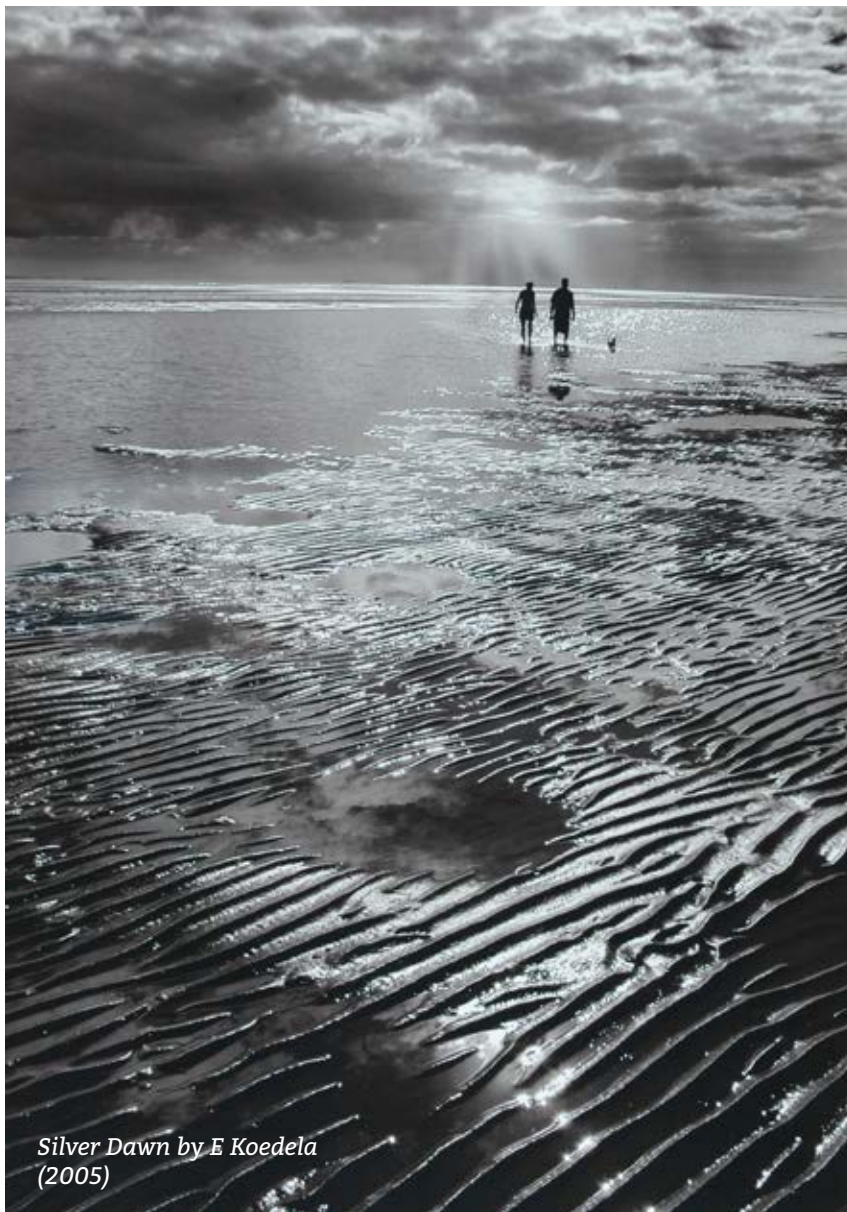

Head Office building serving as a reminder of the sense of identity and motivations of our community. The following images represent a portion of this collection.
